- Communication
- Teamwork and Collaboration
- Adaptability and Flexibility

Education

- **SCIENCE OF BIOLOGY | Mahidol University**
GPA 3.54 (With the first class honors)
2015 – 2019

About Me

Earned a B.Sc. in Biology from Mahidol University and worked for two years as a Research Assistant in the pharmaceutical technology field, where I developed strong analytical skills and a meticulous work approach. Now, I am transitioning to a Full-stack Developer role, driven by my passion for coding. My background in science has equipped me with strong problem-solving skills, which I am eager to apply in programming. I look forward to using my strengths and skills to become an experienced developer.

Background Experience

FULL STACK DEVELOPER IN TRAINING | TechUp Bangkok Jun 2023 – Oct 2023

- Acquired comprehensive training in full-stack web development, covering both front-end and back-end technologies.

DATA ANALYTIC PROGRAM | Skooldio May 2023 – Aug 2023

- Completed a rigorous program in data analytics, developing essential skills for effective data manipulation and analysis.

RESEARCH ASSISTANT | Mahidol University, Bangkok Nov 2020 – Dec 2022

- Responsible for fabricating microneedle patches for treating neurological diseases in elderly patients, demonstrating precision and commitment to impactful research.

Experience Projects

Home Services Web Project

- An on-demand household services web application.
- Key Features : User authentication, CRUD operations, service search functionality, image uploading, and user-friendly drag and drop interface.

Django E-commerce Project

- A mini e-commerce website featuring a product catalog and user authentication.
- Tech stacks : Django, HTML, CSS, JavaScript, Python, MySQL.

Find A Trips

- A travel organizing web application built with React, simplifying the process of planning trips.

etc.
